

AUDiTEL

Electronic Name Plate

Auditel's nameplate is an excellent addition to any meeting space, contributing to a professional atmosphere and nurturing an environment of inclusion.

Each name plate comes with a double sided capacitive touch screen, displaying different content that can be easily edited directly through its user friendly software. The name plates can even be saved after power off.

The built-in meeting management feature allows them to easily modify participant information right before the next meeting. Moreover, the wireless model enhances the meeting experience by providing greater flexibility and convenience.

Available in 7" or 10" options

Double-sided high-resolution

Easy to program and adaptability to the modern meeting space

Includes high refresh rate to prevent flickering

Fully chargeable with up to 18-hour life

Available in wired or wireless options
